Software Engineer

Phone: 8151058373 | karthikkulal707@gmail.com | <https://www.linkedin.com/in/karthik-kulal-06777a1b3/>

Results-driven Full-Stack Software Engineer with 3+ years of hands-on experience in designing, developing, and deploying enterprise-grade web applications. Proficient in C#, .NET Framework/Core, Web API's, MS SQL Server, JavaScript, React JS and RESTful APIs. Adept at building scalable architectures, optimizing database performance, and implementing modern UI frameworks to enhance usability. Strong collaborator experienced in Agile environments, code reviews, and client-facing technical discussions. Passionate about continuous learning, clean code, and delivering high-quality solutions that drive business success.

SKILLS

Frontend: JavaScript, jQuery, React JS, HTML/CSS, , Angular, Classic ASP.

Backend: MS SQL Server, .Net Framework, .Net Core Web API, ASP.Net MVC, AWS lambdas.

Tools: Git, VS code, Visual studio, Postman, Dev Express, MS Excel.

Other Skills: RESTful API Design, Agile Development, Unit Testing, Code Review, Performance Optimization.

EXPERIENCE

Software Engineer

May 2025 - Present

TietoEvry

- Contributing to full-stack development for enterprise web applications using .NET Core and React JS.
- Implementing new features, optimizing existing APIs, and collaborating with cross-functional teams to ensure seamless integration and delivery.

Associate Software Engineer

Oct 2023 - Apr 2025

TietoEvry

- Developed and deployed RESTful Web APIs for a large-scale US-based pest control client using .NET Core.
- Modernized the application UI using HTML5, CSS improving responsiveness and user experience.
- Created a proof of concept (POC) and led a cross-functional team in developing and delivering a new feature from design to production.
- Performed comprehensive code reviews, developed numerous unit test cases to ensure code reliability, and contributed to Agile processes, including serving as an interim Scrum Master when required.
- Designed and implemented complex reports using DevExpress Reporting Tools, improving data accessibility for client stakeholders.
- Authored SQL scripts for data migration and optimization, ensuring data consistency across multiple environments.
- Delivered multiple client demos and presentations, explaining feature design and technical implementation.

Trainee Software Engineer

Aug 2022 - Sep 2023

TietoEvry

- Completed extensive technical training in .NET Core, Angular, React JS, SQL, and JavaScript frameworks.
- Developed prototype applications integrating frontend frameworks with .NET backend services
- Gained hands-on exposure to ASP.NET MVC, Core, and SQL Server, developing small-scale sample applications and proof-of-concept projects.
- Supported API maintenance and debugging efforts for existing client applications.

EDUCATION

Mangalore Institute of Technology and Engineering

Aug 2018 - Jul 2022

Bachelor of Engineering in Computer Science

ADDITIONAL INFORMATION

- Languages:** English, Hindi, Kannada, Tulu.
- Certifications:** Front-End Web UI Frameworks and Tools: Bootstrap 4
- Awards/Activities:** Individual Kudos award, Employee of the month.
